

BRING SITES

Details of the types of the items that can be accepted at these banks can be found on our website www.stroud.gov.uk/recycling but examples would include hair dryers, electric toys, electric kitchen appliances, remote controls, toasters, kettles and irons. The banks will be emptied every 2 weeks by a subcontractor to Veolia called Computer Salvage Solutions (CSS), who will also be fully responsible for the maintenance of the banks at no extra cost to the Council. The WEEE collected from the banks will be recycled by CSS at their facility in Newbury. The items will be shredded to recover precious raw materials which are usually exported to Europe or Asia where they are used to manufacture new products. CSS does not export whole items, only raw materials.

Just to clarify, this scheme will be run alongside the Council's free bulky collection service; WEEE items collected through this service will also be recycled. If you require any further information please do not hesitate to contact me at Richard.coole@stroud.gov.uk

The seven bring sites that we run are listed below. With the exception of Cainscross which does not have a WEEE bank currently, every site has the same facilities.

- Berkeley, Marybrook Street car park, GL13 9DB
- Cainscross, Stroud District Council car park, GL5 4JW
- Cam, Stroud District Council car park beside Tesco, GL11 5PS
- Dursley, Kingshill Parade, GL11 4EJ
- Stonehouse, High Street car park, GL10 2NG
- Stroud, Cheapside car park, GL5 2AD
- Nailsworth, The Old Market, GL6 0DU
